

CLINICA VETERINARIA GRAN SASSO

VIA DONATELLO 26 20124 MILANO

Director: CLAUDIO BUSSADORI MD, PhD, DVM DIPL. ECVIM-CA (CARDIOLOGY)

15 December 2008

To whom it may concern

This is to certify that Dr. Urszula Bartoszuk From October 15th 2007. until today completed a full time internship in small animal cardiology and internal medicine at Clinica Veterinaria G. Sasso in Milano under my direct supervision. During this time of intensive course she had followed several specific course and lectures on echocardiography and abdominal ultrasound she also participate at biweekly round on internal medicine cases.

As a practical training under my direct supervision she participate with all the staff at the managenet of more than 150 cardiology.

She also actively participates at some angiocardiographic study and at several interventional cardioloascular procedure: 40 balloon valvuloplasty for pulmonic stenosis, 20 PDA closure with ACDO, 5 pacemaker implantation and 2 percutaneous coil embolisation of Congenital porto-systemic shunt other than several others thoracic and cardiac surgery.

Following this experience I find Dr. Urszula Bartoszuk to be very knowledgeable and very keen in understanding all the rationale of diagnosis and treatment in cardiovascular medicine.

She demonstrate to be a very hard worker when charged of direct responsibility and even as team-worker.

I would recommend her for a further residency program in small animal cardiology with special address for interventional cardiology and cardiac surgery.

I would be happy to forward any further information if you should so require.

Yours sincerely,

Claudio M. Bussadori
MD, PhD, DVM, Dipl ECVIM cardiology
